# HENLEY HUB

---

Henley Beach,  
South Australia

JPE were engaged to undertake the community consultation and concept design stages for the Henley HUB Project, a new state of the art Library & Community Centre. The development will adjoin the existing heritage listed Henley Town Hall and will integrate innovative sustainable design.

The Henley HUB project will be the first of its kind for the City of Charles Sturt, and act as a model for future Library & Community assets within the city.
