

# THE WAVE APARTMENT & OFFICE TOWER

Adelaide,  
South Australia

'The Wave' is so named because of the sweeping glass façade which takes in magnificent unrestricted views of the Adelaide Parklands and foothills beyond.

Features include a three level podium carpark, retail and restaurant facilities at ground level, five levels of premium office space and three levels of luxurious penthouse apartment living including a roof top pool and entertainment area.

The Wave makes up a number of buildings designed by JPE in the emerging Southern Gateway Precinct on the CBD frame.

This project received an Adelaide Prize Commendation from the Adelaide City Council in 2011.
